

Private Vocal Coaching

2023 - 2024

Our expert vocal coaches are certified educators and are specially trained to develop your singer's unique voice. Your singer will:

-  Choose a song they love that showcases their voice and ability
-  Learn best-practice vocal technique, designed specifically for their voice, across six 60-minute private lessons per song and one 90-minute recording session
-  Record their performance with professional recording equipment and post-session mixing and mastering by an industry-leading audio engineer

Recording a solo song gives singers a clear purpose and goal for their vocal coaching experience. This program comes directly to you - in your home and on your schedule. Sign up with siblings or friends, too!

One singer
\$1425 per singer

Two singers
\$1195 per singer

Three singers
\$945 per singer

GREENWICH
a cappella
